On August 27, 1975, SA Keith Mendenhall, Intelligence Division, currently assigned the Senstudy Project, contacted SAs Hawkins and Sheer and advised that the Church Committee, U. S. Senate, had requested all the files which relate to the Camden Action during August, 1971.

Camden Action involved the case where 28 subjects were arrested in the process of burglarizing the United States Post Office and FBI Resident Agency of Camden, New Jersey, 8/21-22/71. Our arrests of these subjects was based on information from a Philadelphia source, who was developed immediately after Media, Pennsylvania, and who remained with the radical group which eventually was apprehended in Camden.

SA Mendenhall requested that the file be reviewed and only office informant symbol numbers be covered so as not to divulge that particular field office number. However, all other confidential source and informant information on all cover pages were to be left intact. The request was for all of the material which led to the decision to effect the arrests of the subjects in Camden Action, as well as reports. Two Xerox copies of each report were made. There are 45 reports, contained in 25 sections, two teletypes, and two memoranda. There are 73 sections in this file (52-94527), and all were searched. A determination was made that Sections 38 through 73 pertained to Camden Action, while all Sections prior to 38 referred to Media, Pennsylvania. Sections 38 and 72 are excluded since they could not be found, and are still on "locate."

These reports described above are submitted herewith.

SUBJECT: LETTER FROM SENATOR CHURCH TO THE
ATTORNEY GENERAL DATED AUGUST 14, 1975

Senator Church - '75

In accordance with the Director's instructions Legal Counsel Mintz and the writer at 5:15 p.m., 8/26/75 delivered to Mr. Michael E. Shaheen, Jr., Special Counsel for Intelligence Coordination, Department of Justice, the Director's proposed response to Senator Church's letter of August 14, 1975. (Copy of proposed reply is attached.)

Prior to reading the proposed reply, Mr. Shaheen commented that the Deputy Attorney General had ordered that he work up a draft of a reply to Senator Church indicating, in accordance with Shaheen's understanding, that the Senator's requests had been met. Mr. Shaheen then read the Director's proposed reply and commented he thought it was a very good letter and he was in accord with it. He said he had no questions with regard to the contents of the proposed reply.

Mr. Mintz suggested that Mr. Shaheen show the Director's proposed reply to the Deputy Attorney General prior to working up the draft letter and Mr. Shaheen said he would do so. He also stated he would keep us advised of any further developments. In the event a decision is made that the Director's proposed letter not go forward to Senator Church, it is anticipated that we will be fully advised of any proposed reply before it is forwarded by the Deputy Attorney General or the Attorney General.

ACTION:

The Director will be informed of any further pertinent developments.

Dear Mr. Chairman:

Your thoughtful letter of August 14, 1975, to the Attorney General was referred to me and it has been carefully considered. I certainly agree with the view expressed therein that it is important the Committee's oversight responsibilities be fulfilled in an objective and impartial way. To that end, I have required employees with experience to assist in locating the full documentation called for in Committee requests. The voluminous files and variety of indices entries would have been much more difficult to sort for your benefit without the assistance of persons having such expertise.

I appreciate your assurance that the Committee has no evidence that our arrangements have prevented the Committee from obtaining the full disclosure sought. I have absolute confidence that those FBI employees participating in our current efforts to assist your Committee are working in good faith and have not inhibited full disclosure. Further, I have required close supervision of this work by superiors and thereby avoided the possibility of an improper decision by any one individual affecting the responses.

NOTE: Based on incoming memorandum from Michael E. Shaheen, Jr., 8/20/75, enclosing copy of letter from Senator Church to the Attorney General.

Honorable Frank Church

As to the availability of an FBI representative during Committee staff interviews of present or former FBI employees concerning alleged 'abuses,' I have determined that such no longer will be generally afforded. - The subject matters requiring consultation with such witnesses are essentially four: (1) information which identifies or may identify FBI confidential sources; (2) information which may adversely affect on-going FBI investigations; (3) information concerning sensitive methods and techniques; and (4) information obtained from third agencies, including foreign intelligence agencies. Witnesses may be cautioned prior to interview concerning such problem areas and refrain from furnishing the information pending consultation with FBI Headquarters. This modification is effective immediately.

I hope that you will bring this matter to the attention of your staff and that in so doing you also will review the standards of objectivity and impartiality being followed in their interviews to assure protection of individual rights.

Sincerely yours,

SUBJECT: Senate Select Committee Request: Joseph Kraft

This memorandum will confirm a telephone conversation had this morning with Jack Fuller, Special Assistant to the Attorney General, on the above-captioned request. Mr. Fuller advised that in light of conversations he had had with you on the subject of the SSC's request pertaining to materials in the Kraft file, I should forward that request to you in writing for the Bureau's appropriate response. *D*

The SSC's request for Kraft materials is contained on page 3 of the attachment to John Elliff's letter dated July 28, to former Special Counsel K. William O'Connor. Specifically, it is request III.A. and asks for more than the SSC's "outstanding previously requested materials" on the subject of Kraft. I have attached, for your easy reference, my memorandum of September 8, 1975, to Jack Fuller, which contains the specific language of the Committee's request. (You should already have a copy of Elliff's letter of July 28, 1975, with attachments.)

SUBJECT: Senate Select Committee Request: Joseph Kraft

Jack:

Reference is made to my memorandum of August 4, 1975, to you concerning the Senate Select Committee's interest in examining memoranda and correspondence as they relate to or summarize the contents of the Kraft overhears.

As you requested in our telephone conversation this morning, the Committee's request as made of the Department by letter of July 28, 1975, follows. It asks for all:

"Materials pertaining to the reported investigation of columnist Joseph Kraft in 1969, other than the 'logs' of any surveillance".

If, as the Attorney General's designee, you would renew your request of the Bureau for compliance on an expedited basis with the Committee's request, it would be most helpful.

SUBJECT: Modification of SSC Request

Attached is a letter from John Elliff of the SSC staff which modifies the language of the August 29, letter from the SSC's Chief Counsel Schwarz to the Attorney General. The last sentence of the first paragraph of the August 29, letter read as follows:

"Where an Internal Security Division request was made with respect to a person or organization on whom the Internal Security Division or the FBI maintained or maintains a file, we would appreciate the opportunity to review the entire file". (emphasis mine)

The modification of the first paragraph effected by the attached letter deletes the words "or the FBI" as underlined above. Such a modification exempts the raw files of the Bureau from inclusion in this request. The request still requires response by the Bureau for "all documents" in its possession as requested of the entire Department generally by the modified first paragraph.

At 10:30 p.m., 8/28/75, former SAC Joseph K. Ponder telephonically advised SA T. J. Deakin, Night Duty Supervisor, Intelligence Division, that he was contacted by one Mike Epstein who identified himself as a Staff Member of the Senate Select Committee on Intelligence. Epstein indicated he wanted to interview former SAC Ponder regarding the Martin Luther King case. Ponder advised he was SAC, Atlanta, during that investigation and indicated Epstein is to recontact him Saturday, 8/30/75, in Los Angeles.

Mr. Ponder requested any advice the Bureau might have regarding such an interview, noting his recollection of this investigation is extremely hazy at this time. He can be reached at his employment, TRE Corporation in Beverly Hills, telephone 213-272-9357, all day Friday, 8/29/75, until 5:00 p.m., Los Angeles time.

NOTE:

The Criminal Division has requested all memoranda, records, letters and other correspondence from 1951 to date which the FBI had received or generated with respect to its contacts or involvement with the White House, Attorney General, Postal Department or Postal Service [redacted] in connection with the inception, implementation or declination of participation by the FBI in mail intercept programs. The letter of 8/13/75 from the Criminal Division also asked for all information relative to the inception, implementation, justification, and highest level of authorization for institution of any mail intercept (opening) programs either independently or with the assistance or approval of the Postal Service or any other Federal agency from the period 1940 to present. That letter requested that we advise Mr. Edward Fenig or Ronald Malone, Division attorneys, when this information is available. This notification is being furnished by letter to the attention of Mr. Paul Boucher since he is the Departmental attorney who received information on the Project Hunter program and is the individual interested in obtaining information concerning our program. The information referred to in this letter concerns the Sam Survey and Gus Survey and we still have six more programs about which to furnish information to the Department. (S)

Reference is made to FBI memorandum dated August 25, 1975, in response to an SSC request dated August 20, 1975, for the last known addresses of several former FBI Special Agents (SA).

In respect to former SA Paul Leslie Cox, we furnished his address as 2101 Ingraham Street, Hyattsville, Maryland 20782, which was the most recent address available in our files.

We have since determined that former SA Cox is frequently in travel status and uses the following two addresses which are of motor trailer courts. The first of these addresses is primarily a mailing address and the second is of a place where he generally resides when in Florida.

(1) U.S.N.A.T.O., P.O. Box 1418, Sarasota, Florida 33578.

(2) Number 353, 1300 South Airport Boulevard, Melbourne, Florida 32910, telephone, area code 305, 724-4104.

Reference is made to the letter from the Chairman of the SSC to the Attorney General dated August 28, 1975, requesting delivery by September 3, 1975, of previously requested FBI materials pertaining to Dr. Martin Luther King, Jr.

Materials requested in Items 3, 4, 5, 9, 12, 14, 16, 17, 18 and 21 of the SSC request of July 8, 1975, have been processed and will be delivered to the Committee on September 3, 1975, with this communication.

With regard to Item 10 of the July 8, 1975, request, a review of logical FBI Headquarters files reveals no information relating to the existence of mail openings or mail covers concerning Dr. King.

Item 13 requested copies of all performance ratings from 1959 until retirement of former Special Agents (SA) Robert R. Nichols and Alan G. Sentinella. This material is not being forwarded but will be available for review at FBI Headquarters pursuant to previously agreed-upon arrangements pertaining to the review of performance ratings.

electronic surveillances of Dr. King. In most cases, it can be ascertained precisely which information in FBI files came from electronic surveillance of Dr. King; however, there exist areas where documentation of the information is not precise and no accurate determination can be made. Therefore, no assurance can be given that portions of the material being furnished do not contain information developed as a result of electronic surveillances of Dr. King.

It is further noted that in response to a number of SSC questions, it was necessary to furnish copies of newspaper articles since these articles constitute the only material available responsive to the SSC request.

With regard to the SSC request of July 14, 1975, the materials requested in Items 1 and 5 of that request have been processed and will be delivered to the Committee on September 3, 1975, with this communication.

Item 2 of the SSC request of July 14, 1975, requested the identity of the author of the monograph attached to Mr. Sullivan's memorandum to Mr. Belmont dated October 15, 1963. The author of this monograph was former SA Charles D. Brennan.

Item 10 requested the identity of the author of the 1964 "up-to-date revision" of the 1963 monograph. The author of this revision was SA Seymour F. Phillips.

Item 17 requested the author of the memorandum captioned "Martin Luther King, Jr.: His Personal Conduct." The author of this memorandum was SA Theodore P. Rosack.

The remaining materials requested in the SSC requests of July 8, 1975, July 14, 1975, and August 20, 1975, (Part VII) are receiving continuous attention and the results will be forwarded on a periodic basis as soon as possible.

Attached is a copy of a letter from Senator Church to the Attorney General dated August 28, 1975. The letter is self-explanatory.

I would appreciate it if you would treat this request with the highest priority.

I have discussed with Mike Epstein (in Elliff's absence) of the SSC and with Elmer Larson of the Bureau the demands this request will pose for the Bureau, and we have agreed to defer responding to Elliff's requests of August 20, 1975, for Parts IV and V, from September 4 to September 9, in an effort to meet the response date (September 3) of the attached request.

Dear Mr. Attorney General:

I would like to bring to your personal attention a situation which has severely restricted our efforts to establish the relevant facts with respect to one of the areas of alleged abuse which is the subject of inquiry pursuant to S. Res. 21.

I have been informed by the staff that numerous materials which have been requested during the past several weeks which pertain to the FBI's activities with respect to Dr. Martin Luther King, Jr., have been withheld from the Committee by the Department because of concern expressed by Mr. Harry Wachtel, the attorney for the King family and estate, as to the appropriateness of the Department's "disseminating" to the Committee contents of conversations monitored during electronic surveillances of Dr. King.

Upon reviewing the lists of materials requested, I am at a loss to understand how most of those items could conceivably be encompassed by the issues raised by Mr. Wachtel, especially in view of the fact that our letters of request have specifically pointed out that tape recordings and transcripts should not be supplied.

Accordingly, I want to take this opportunity to place the Committee formally on record as reaffirming all of the outstanding requests for materials relating to the King matters, with the limited exception of (1) Mr. DeLoach's August 24 - 27, 1964 memoranda which pertain to the 1964 Democratic National Convention, and (2) those portions of any other requested materials which actually summarize or quote from conversations monitored during any electronic surveillance of Dr. King.

Delivery is requested by Wednesday, September 3, 1975, pursuant to the provisions of the general procedural agreement between the Department and the Committee which governs all Committee requests. I understand that the Bureau has been collecting the King-related materials upon receipt of each of our requests, and therefore I presume that there will be no substantial burden in meeting the September 3, date.

Your cooperation is appreciated.

I am taking the liberty of sending Mr. Wachtel a copy of this request.

Dear Mr. O'Connor:

Pursuant to Section III. A. of the notification attached to the Committee's letter of June 27, 1975, I am forwarding herewith an additional request for materials which relate to this matter.

The specificity of this request is not, of course, intended to limit in any way the agreement to come forward with all relevant information and materials, including documents, whether or not they have been brought to the Committee's attention or have been specifically requested by the Committee.

As Mr. Schwarz and I indicated in our meeting with you a few days ago, there are still outstanding several items relating to this matter which the Committee requested some time ago. This request should in no way delay further the availability of the previously requested items, and we would expect that individual items will be supplied whenever they become separately ready for submission.

Your cooperation is appreciated.

Dear Mike:

On May 14, 1975, the Senate Select Committee to Study Governmental Operations With Respect to Intelligence Activities requested all memoranda and other materials related to the 1969 disappearance of Associate Professor Thomas Riha, University of Colorado, insofar as such memoranda and materials related to: (a) efforts of the FBI to ascertain the identity of confidential sources of the Central Intelligence Agency; and (b) inspections and administrative inquiries related to the disclosure of information to Dr. Joseph R. Smiley, then President of the University of Colorado. The Select Committee also requested all memoranda and other material related to actions by the Director or any other official of the FBI severing liaison or terminating contact between personnel of the FBI and personnel of the Central Intelligence Agency. On June 13, 1975, the Select Committee received a very adequate response to the Committee's May 14 request.

The Select Committee would, however, like to request one further item in relation to the Riha case. Specifically, the Select Committee would like to request all information relating to the disappearance of Associate

Enclosed herewith for the Bureau are two copies of the notes of HERBERT KANTOR, the Attorney of SA JAMES P. KEHOE who was present with him during SA KEHOE's appearance before representatives of the Senate Select Committee on 8/12/75 in Washington, D.C.

With regard to the above, the only two corrections to be noted are on Page 6 where it states, "KEHOE said the name ORENSTEIN was familiar". This should have been "unfamiliar". On Page 9 it reads, "It reviewed several hundred pieces of mail a day". This statement should have added to it, "to obtain letters addressed to Soviet personnel. The next sentence "all such letters were brought back" refers only to those addressed to Soviets and not to the several hundred pieces as is implied in the way this matter is written up.

In view of the fact that SA KEHOE was not provided counsel by either the Bureau or the Department, and his statement refers to Bureau work and Bureau policy, the Bureau is specifically requested to advise what avenues are available to SA KEHOE to recompense him for his legal fees.

SUMMARY OF APPEARANCE WITH JAMES KEHOE BEFORE SENATE SELECT
COMMITTEE TO STUDY GOVERNMENTAL OPERATIONS WITH RESPECT TO
INTELLIGENCE ACTIVITIES ON AUGUST 12, 1975

~~SECRET~~

I met with James Kehoe at the offices of the FBI at 12:45 P.M. John B. Hotis, Leon F. Schwartz and Paul V. Daly were present. I was furnished a memorandum concerning Kehoe's appearance before the Senate Select Committee, a copy of which is attached. Mr. Kehoe and I were assured that the Director had waived the secrecy agreement with respect to Kehoe's testimony insofar as it related to mail covers and interception, and that the Department of Justice had approved the furnishing of such testimony. Mr. Schwartz advised that he would accompany us to the offices of the Committee and would keep himself available in the event that his assistance was required.

Kehoe, Schwartz and myself arrived at the Senate Office Building at 1:55 P.M. We were met by Paul Wallach, James Dick, and Thomas Dawson. Wallach and Dick were staff counsel to the Committee; Dawson identified himself as being in Research. Wallach, Dick, Dawson, Kehoe and I proceeded to the office of Senator Huddleston where the interview took place. Schwartz remained in an adjacent room. The interview proceeded as follows:

James Dick initiated the questioning. Kehoe stated that he had been given no specific instructions from the Bureau as to how he was to testify. He stated that he was a Special Agent of the FBI having entered service in 1951 and

that he was assigned to counter intelligence for approximately 22 years. His squad was concerned with Soviet espionage activities in the United States

SECRET

Kehoe identified the agents in charge of the New York Office during his tenure (LaPrade, Malone, Foster, Powers and Schmidt) and his immediate supervisor in the mid 1960's (Brandt). Kehoe stated that he worked exclusively in counter intelligence except for occasional manpower emergencies when he might be assigned other temporary duties.

Kehoe stated that all requests for mail covers were forwarded through his office to the Director in Washington and that approval would be returned in the same manner. All communications from Washington came under the name of the Director. Upon receipt of the approval, contact would be made with local postal inspectors.

Direct communications with postal inspectors might take place in special circumstances. For example, if a subject being surveilled placed a letter in a mailbox, postal inspectors might be requested to locate the letter and advise the name of the addressee. No search warrant would be obtained under such circumstances. Kehoe stated that all investigative contacts with the postal service were made with postal inspectors. Mail carriers and other personnel were not contacted directly. The FBI maintains liason with the post office, but individual agents could contact postal inspectors directly in certain matters connected with their cases. Kehoe could not recall the names of the liason men in the mid 1960's.

SECRET

Kehoe stated that his first contact with the Committee

was with Paul Wallach, that his contact with the Washington Office

of the FBI in connection with his appearance was with John Hotis. He advised that the FBI had not furnished him with counsel and that Herbert Kantor was his personal counsel.

Kehoe stated that he visited Kennedy Airport in connection with his duties to observe arrivals and departures of persons under surveillance, to confer with the resident agents, and in connection with mail procedures. In 1959 Kehoe suggested that a program to review outgoing foreign mail be initiated. The suggestion for the program was submitted to his supervisor and the agent in charge forwarded the suggestion to the Director. He did not recall how long the request was pending in Washington, but stated that it was approved and continued for approximately four years.

Arrangements were made with postal inspectors to have postal employees deliver certain air mail to a room in the air mail building where it was scanned by FBI agents. Letters to specific addresses in certain cities as well as letters having certain indicators on the outside of the envelope that implied a Soviet Connection were withdrawn from the mail and brought to the New York Office. Kehoe stated that the indicators were received from a sensitive source and could not be revealed. He confirmed that there was good reason to believe that the indicators were accurate and the program subsequently proved their validity. The program was given the acronym designation "SAM Survey" and assigned a case file. The mail that was scanned under this program included mail going to both Eastern and Western European countries. Kehoe stated that he believed the program was ~~terminated~~ by the Director in 1963,

although he is aware that newspaper reports had indicated that the program might have continued thereafter.

A separate program providing for the review of all mail addressed to the Soviet establishments in New York was conducted at or about the same time as SAM. This project received the designation "Z Coverage". To Kehoe's knowledge the "Z" project was not generic, but related specifically to mail addressed to the Soviet mission to the United Nations. Kehoe did not know how the Z program was initiated but believed that it too was terminated by the Director in the mid 1960's.

A third mail program designated "SUN Survey" paralleled the other two programs during the early 1960's. [This program included scanning the mail addressed to all Soviet personnel at a post office box reserved for the United Nations. This mail included Soviet citizens working at the United Nations other than in the Soviet United Nations mission. Kehoe stated that he was not aware of any other mail intercept program involving the Soviets.] He stated further that he would have no knowledge as to whether any other mail intercept programs existed with respect to non-Soviet matters. Kehoe said that he did not know the members of the China squad and that he had not heard of the Hawaiian Project. Kehoe said that he participated in SAM and SUN but not in Z. If a project originated out of the New York Office or was conducted by it, it would be unlikely that the SAC would not have knowledge of it.

SECRET

Kehoe stated that ~~SECRET~~ he would write a memorandum of his appearance before the Committee and submit it to the FBI. I stated that the FBI had made no request for my notes. Kehoe said that he was not aware of any ongoing mail projects other than mail covers used in connection with specific cases.

Kehoe said that in the mid 1960's the SAC was Joseph Schmidt and his supervisor was Arnold Brandt. His squad was designated by a letter or a number which did not have reference to its function in Soviet counter intelligence. The squad designation changed from time to time "as a football defense adjusts to counter the offense".

Kehoe could not recall his first meeting with postal inspectors in connection with the SAM survey. Kehoe said that he knew the postal inspector in charge but did not recall whether he discussed the SAM survey with him. If the postal inspector in charge was present at such meeting then Kehoe believes that he would have been accompanied by Schmidt. The FBI informed the postal inspectors that they wished to review outgoing mail at Kennedy Airport addressed to certain European countries. The review of the mail was completed before the flight out so that there was no delay. A list of known Soviet mail drops was created and used for this purpose. Kehoe's entire squad worked on the project at various times. The special indicators were looked for on a random sample basis in the mail to various European cities. The selection of which cities' mail would be reviewed depended upon flight schedule and manpower availability.

~~SECRET~~

Kehoe was introduced to a post office employee at Kennedy Airport by a ~~SECRET~~ postal inspector. Kehoe visited Kennedy about five times while the project was being set up. He did not participate in the actual scanning of mail thereafter. When the mail was delivered to the room designated, the postal employees left. No postal employee was present when the mail was scanned. Kehoe believed that a sub-section supervisor, James O'Brien, assigned the personnel to scan the mail. Kehoe said the name Orenstein was familiar and might have been one of the names of the postal employees who worked at Kennedy Airport.

Mail addressed to the addresses on the watch list or bearing the indicators was opened by steam, the contents photographed, then replaced, returned to Kennedy Airport and put on the next flight together with other mail. Inspection for microdots was undertaken, but lab tests were not performed for other secret writing as it would destroy the letter. The program was conducted at Kennedy Airport only. It was pursued around the clock, seven days a week. It was keyed to specifically known Soviet mail drops and indicators and was not based on the sender.

Kehoe stated that he had read the Rockefeller Committee report concerning the CIA mail program. He stated that the differences in the programs between the CIA and FBI may have been due to the differing functions of the agencies. Kehoe stated that he was not aware as to whether information was exchanged with the CIA and that he did not meet with Mr. Papich.

~~SECRET~~

Kehoe said that not more than three or four men at a time were assigned to review the mail. Special skills and language were not required. He identified as members of his squad in the 1960's Francis Zangle, Bob Fieldhouse, James McCarthy, Ray Wirth, Mike Moffit, and Richard McCarthy.

Kehoe stated that he was not in contact with the CIA during the early 1960's. He had only occasional contact after liason between the two agencies broke down.

Kehoe stated that the SAM Survey probably opened fewer than 100 letters. If one letter bearing special indicators was located within a six-month period, it was as much as could be expected. Ordinary surface mail and registered mail were not a part of the program. The letters were photographed in the same manner as the Z cover letters. Kehoe stated that the room at Kennedy Airport did not contain a telephone and was not visited by anyone from Washington. Kehoe said that Schmidt did not visit the room. No record of the mail reviewed was made in the room and no photographic equipment was present there. A letter was either withdrawn from the mail and taken to the New York Office or put back into the mail without notation. From time to time additions to the watch list were forwarded from Washington. Kehoe stated that he did not know of his own knowledge but assumed that such additions may have come from the CIA.

Kehoe said that no cover story was developed in anticipation that the program might be exposed. The question of exposure had not been raised nor did the FBI have concern

for the postal office employees working in connection with the program. The only concern was that the Soviet personnel might discover the mail watch and change their method of operation. Kehoe stated that the case file was re-assigned by him to George Quinn, who is now deceased. He did not know who received the assignment of the case after Quinn.

When a letter containing indicators was opened and photographed there was no general dissemination of information. A case file was opened with reference to an illegal Soviet in the United States writing to his superior in the U.S.S.R. through a mail drop in a European city. More complete identification was difficult since the letter was fictitious. False names were used and the communication was clandestine. Washington was informed of the location of the letter but nothing more than an acknowledgement would be returned.

Washington did not express any complaint with respect to the man hours spent on the project. Kehoe assumed that Washington personnel were informed of the project on a "need to know" basis.

Kehoe stated that the SAM survey was terminated by the Director as a policy decision not because of any specific event with which he was familiar. To his knowledge, the project was never reinstated, although he had suggested privately, but not officially, that he believed it would have value if recommenced.

Co-ordination with the CIA was never requested. Kehoe met several employees of the CIA from time to time but did not recall their names. Kehoe was not aware of any request that the

CIA made for bugs or break-ins either through the New York or Washington Offices of the FBI. Kehoe stated that he had no direct knowledge with respect to break-ins into installations of other governments including South American countries.

The SUN Survey was initiated by George Quinn. It had procedures similar to the SAM Survey. [It was assigned a room on one of the upper floors of the Grand Central postal building. It was a natural extension of the Z coverage. It reviewed several hundred pieces of mail a day. All such letters were brought back to the FBI and photographed. One man was assigned to this duty each day at the Grand Central post office. Kehoe took his turn from time to time. Since the Grand Central post office was nearby, it was less time consuming than the Kennedy Airport project. The room assigned to the FBI was not private and there were postal functions going on on the same floor. Kehoe believed that the same postal service employee was assigned to deliver the mail for scanning each day. Kehoe did not discuss the mail projects with anyone outside the FBI. Kehoe did not believe the project could not be functioning today in the New York Office without his being aware of it.] (S)

Kehoe believed that worthwhile information was derived from the mail projects. The SUN letters that were photographed were not routinely sent to Washington as many such letters were innocuous. Any letters to the Soviet Mission to the United Nations would be photographed regardless of the source. Kehoe had no knowledge of the names of any prominent persons writing to the Mission but stated that anyone (S)

who did so would have had their letter photographed. Kehoe believed that the Soviets had a similar mail operation functioning

~~SECRET~~
Kehoe did not know Frank Fabarini or Robert Williams. (S)

He was familiar with Robert Hickey and Robert Monroe postal inspectors, and Henry Montegue.

Mr. Wallach thanked Mr. Kehoe for appearing and stated that he thought he was most cooperative. The interview terminated at 4:40 P.M.

I have detailed penciled notes of the interview, including which of the three questioners addressed their questions to Kehoe. My notes are available in the event that further details are required.

James Dick of the Senate Select Committee requested former Special Agent George Berley be made available for Staff interview concerning surreptitious entries by Bureau personnel at 9:30 a.m., 9-10-75.

We have previously communicated with the Department requesting that they consider holding interviews by the Senate Select Committee in abeyance in the area of surreptitious entries since it is under review by the Department for possible criminal misconduct by Bureau personnel. Michael Shaheen, Special Counsel for Intelligence Coordination for the Department, has advised us orally the Department will not hold such interviews in abeyance but rather the Bureau should allow such interviews to take place. Shaheen orally stated that Bureau personnel, who are being interviewed in these areas, should receive a very strong briefing of their Fifth Amendment rights prior to their interview by the Senate Select Committee.

SA Berley has advised the Legal Counsel Division that he has been contacted by the Senate Select Committee concerning this interview. He was given a general briefing concerning his rights by SA Paul V. Daly of this Division and he is to arrive at the Legal Counsel Division for a more detailed briefing prior to his interview. He will also be briefed at that time by the Intelligence Division in other areas which he may properly refuse to answer questions.

RECOMMENDATION:

That existing employment agreement concerning George Berley be waived for purposes of this interview.

Sensstudy - 75
Attached is a proposed letter requested by Mr. Phillip W. Buchen, Counsel to the President, concerning the need for consolidation of Congressional inquiries into activities of agencies within the intelligence community. The letter briefly outlines some of the problems created by the proliferation of committees exercising oversight responsibilities in this area and calls for the creation of a joint oversight committee in Congress.

Honorable Phillip W. Buchen
Counsel to the President
The White House
Washington, D. C. 20500

Dear Mr. Buchen:

This is in response to your request for our views concerning the need for consolidation of the various Congressional inquiries into the activities of the Federal Bureau of Investigation and other investigative agencies in the Department of Justice.

As you know, the number of Congressional Committees expressing legislative or oversight interest in these agencies has increased significantly in the past several months. In addition to Select Committees in the House and Senate, at least a half dozen other Committees of Congress are presently inquiring into the activities of these agencies. It appears, for example, that oversight responsibilities in the House over the FBI are shared by the Subcommittees on Civil and Constitutional Rights; Courts, Civil Liberties and the Administration of Justice; and the Subcommittee on Government Information and Individual Rights. We have also been invited to testify before the Subcommittee on Postal Facilities, Mail and Labor Management on matters relating to the interception of the mails. Vast amounts of information and documents have been provided thus far to the members and staff personnel of several of these Committees, and briefings have been conducted on the most sensitive operations of Government.

As a general rule, these Committees are staffed by personnel who have limited knowledge about the functions and responsibilities of the intelligence community. In an effort to provide the basic information needed for an intelligent judgment in these matters, we have conducted a number of briefings for staff members of these Committees.

Honorable Phillip W. Buchen

This is a time-consuming process and one which must be repeated for each of the Committees. Additional problems are created by the numerous interviews by Committee staffs of agency personnel. In some cases, these interviews involve alleged improprieties or matters being reviewed by this Department for possible prosecution. This places the employee in a very difficult situation, particularly when he is called upon repeatedly to justify his actions to various Congressional investigators. Not only does this disrupt the normal routine of the agency, but it tends to undermine the morale of its employees.

We have experienced considerable difficulty establishing guidelines for these interviews and for the review or production of documents in agency files. After some months of negotiations with the Senate Select Committee, we finally agreed upon certain procedures in these matters. It appears, however, these procedures are not acceptable to the House Select Committee which prefers to deal with each request on an ad hoc basis. We can expect similar problems with other Committees of Congress, each of which is concerned about preserving its own autonomy and carrying out what it perceives to be a separate legislative or oversight mandate. This makes it necessary for us to respond in different ways to different Committees of Congress, even though there is considerable overlap in the type of information requested.

As you might expect these demands impose a substantial administrative burden on each of the agencies involved. In an effort to minimize this problem, I have appointed a Special Counsel for Intelligence Coordination who reports directly to me in these matters. The Bureau has also created a special unit to handle these requests, staffed by several Agent and clerical personnel. Nonetheless the demands have been so great that it is often impossible to comply in a manner which is satisfactory to the Committees. In my opinion, we will soon be at a point where the effort needed to comply in a complete and timely fashion to Congressional demands will seriously undermine the ability of these agencies to carry out their normal investigative responsibilities.

Honorable Phillip W. Buchen

I am also concerned about the possibility of compromising extremely sensitive sources or ongoing investigations. While it is not my intention to question the integrity of Congressional staff members, the widespread dissemination of these materials inevitably increases the likelihood of improper disclosure. The problem is aggravated in the House by Rule 11 which provides that information furnished to a Committee is available upon request to any member of the House. As you know, Rule 7.3 of the House Rules for the Select Committee on Intelligence Activities states that, "Until such time as the committee has submitted its final report to the House, classified or other sensitive information in the committee records and files shall not be made available or disclosed to other than the committee membership and the committee staff, except as may be otherwise determined by the committee." It is not at all clear, however, whether the Committee Rules supersede established rules of the House. Furthermore, Rule 7.3 does not deal with the ultimate disposition of such materials once the Committee has submitted its final report. Until this matter is resolved, we have no real assurance that this information will be afforded the proper safeguards.

These problems can be greatly alleviated without any impairment of Congressional responsibilities by the creation of a joint oversight Committee. A consolidation of the oversight functions in one Committee would reduce duplication of effort and enhance the ability of the Congress to acquire the information needed for an intelligent and reasoned judgment in these matters. It would also minimize the competitive atmosphere which presently exists among some of these Committees. I would urge, therefore, that such a proposal be made to the joint leadership of Congress, with a view toward the prompt resolution of this issue.

NOTE:

SSC request 8/5/75, Item V, Part E, requested Staff access to materials relating to the NSA Watch List. These materials were collected and processed, and reviewed by SSC Staff Member Jim Dick on 8/26/75. Referenced letter requested, in Part I, Item 1, delivery of these materials by 9/12/75. On 9/4/75, we were informed that SSC Staff Member Mark Gitenstein had asked Special Counsel to the Attorney General Shaheen if we could deliver these materials by 9/5/75. They are being forwarded herewith. Inasmuch as the materials contain information originating with NSA, Supervisor J. P. Thomas, on 9/4/75, contacted Mr. Frank Foster, NSA, to obtain clearance to furnish the material which originated with NSA to the SSC. Mr. Foster, after clearing with Mr. Benson Buffham, advised that NSA had no objection to our releasing this information and, in fact, believed that the substance of the material was already in the hands of the SSC. Exact copies of the materials being furnished are maintained in the office of the Senstudy Project and a detailed record has been maintained of the materials furnished. Arrangements have been made for a representative of the Legal Counsel Division to deliver the attached memorandum as well as the materials being provided to the SSC on 9/5/75.

Set out below is information concerning an interview of FBI SA Richard Wallace Held by an SSC Staff Member. Held is currently assigned to FBI Headquarters (FBIHQ). The details of the interview are as furnished by Held.

On advance notice from Mr. Lester Seidel, SSC Staff Member, Held was advised that he was to be interviewed at 10:00 a.m., August 29, 1975, in the SSC offices. Held was informed by the Legal Counsel Division of the FBI that he was being released from any applicable employment agreement for purposes of the SSC interview concerning the Counterintelligence Program (COINTELPRO)/Black Panther Party (BPP). It was explained to Held that he had the right to counsel; however, the FBI was unable to provide private counsel. Held was told that there were certain privileged areas concerning which he would not be required to answer questions. These areas concern information relating to sensitive methods and techniques; information which might adversely affect ongoing FBI investigations; information which might divulge the identities of FBI sources; and information which had originated with other

agencies, including foreign intelligence agencies. Held was informed that if a question arose during the interview in one of these areas, he had the privilege, before replying, of consulting with FBI Assistant Director W. Raymond Wannall either telephonically or by returning to FBI Headquarters.

Held's statement concerning the interview is as follows:

Mr. Seidel was met at 9:50 a.m. at the Dirksen Building and we went to the building directly adjacent thereto to conduct the interview. From approximately 9:50 a.m. to 10:25 a.m. we engaged in general conversation unrelated to my employment and the stated purpose of the interview. At approximately 10:25 a.m. we began the formal interview, but I was not advised of my rights.

In the first question posed by Mr. Seidel he asked if I had been the coordinator of the Los Angeles Division Black Panther Party (BPP) Counterintelligence Program (COINTELPRO) between September, 1969, and May, 1971. I responded that though I was unable to recall the dates the case had been assigned to me that, amongst other investigative matters, the COINTELPRO in Los Angeles had been assigned to me during that general period.

Mr. Seidel thereafter posed general questions regarding my FBI background and he also asked the nature of my current duties. I responded I currently supervise investigations of extremist Indian activity in the Intelligence Division and also was participating in a study being conducted by the Office of Planning and Evaluation.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FBI SA BY SSC

Mr. Seidel asked how I viewed the COINTELPRO in Los Angeles upon being assigned the case. I responded that I could not specifically recall what my thoughts were at that time, but I realized there were definite parameters to what could be done in the Program and that all proposals were to be approved by FBIHQ. I explained that, using contemporary language, I knew upon being assigned the case that it was not a "plumbers operation."

Mr. Seidel asked if I had employed "cartooning," anonymous phone calls or letters to cast suspicions on BPP members as informants, or engaged in actions to disrupt the circulation of the BPP newspaper and I responded that I did not recall making any proposals to FBIHQ in those regards.

Mr. Seidel asked what I understood to be the legal predication for the COINTELPRO as a whole. I answered that I could not specifically recall being aware of any particular legal predication for the Program. He asked if I had been advised that the Smith Act had been the legal basis for the Program, and I stated that I did not recall being so advised.

He stated that in the 90-day COINTELPRO reports there were repeated references to the use of interviews of BPP members as an ongoing COINTELPRO action. I explained that under normal circumstances individuals associated with the BPP would have been interviewed anyway, whether or not the COINTELPRO had been in existence. He asked if interviews were intended to give BPP activists the impression there was an FBI Agent behind every tree and I responded that I had not been instructed to use the interview program for that purpose and I, in turn, had not recommended that approach to any other Agent. He asked if we had ever greeted BPP activists on the street in front of

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FBI SA BY SSC

their extremist associates in order to potentially convey the impression they were informants or cooperating with the FBI, and I recalled no instances where such recommendations were made to FBIHQ in the COINTELPRO.

Mr. Seidel asked if I felt the COINTELPRO had been effective. I said that that required a value judgment, but as far as my personal experience in the Los Angeles Division was concerned, I felt it had minimal impact though there was never any way to be certain what impact individual actions may have had.

Mr. Seidel asked if information obtained through electronic surveillances had ever been used as the basis for a COINTELPRO action. I answered that I could not recall that being the case. He inquired if I had ready access to electronic surveillance logs and I replied that I could not recall regulations regarding access to the logs, but I would have had little interest in reviewing them. I explained that any pertinent information so obtained would have been directed to individual case files.

Mr. Seidel asked if information obtained from an electronic surveillance had been the basis for furnishing information to Hollywood columnist Joyce Haber about Jean Seberg being pregnant by Raymond Hewitt. I responded that I had recommended to FBIHQ that information to that effect be furnished to friendly sources in the media, but I could not recall what the original source of the information had been. I added that to the best of my recollection that recommendation had been turned down by FBIHQ.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FBI SA BY SSC

He again asked if information obtained from electronic surveillances had been the basis for COINTELPRO action, and I again responded that it possibly could have been the case in the Seberg matter, but I was not sure, and I could recall no other instance where it might have been.

Mr. Seidel asked me to explain the nature of the feud between the BPP and the U. S. Organization. I generally explained that this conflict had preceded my arrival in Los Angeles and continued for some time thereafter. I said that the two organizations were competing for influence in the black community and on college campuses and that some of this competition had resulted in violence, including the shooting deaths of two BPP leaders on the campus of the University of California at Los Angeles in 1969.

Mr. Seidel asked if we had attempted to encourage that conflict through use of the COINTELPRO. I responded that I could recall no proposals that originated in Los Angeles that were intended to increase the antagonism between the two organizations. He asked if cards stating "Karenga is impotent" had originated in Los Angeles. I replied that I knew such a thing existed, but I did not recall this being a result of a proposal I had submitted. Mr. Seidel thereafter asked if Ron Karenga had been an informant for local or Federal authorities, as had often been alleged. I responded that I had no information regarding that.

Mr. Seidel asked if I had ever received any pressure from Washington concerning the COINTELPRO. I advised him that I remembered nothing to that effect. He asked if pressure had been placed on San Francisco concerning the COINTELPRO, and I responded that I had no information in that regard.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FBI SA BY SSC

Mr. Seidel asked if the informants in the Los Angeles Division had been good. I simply responded that informants are a "hit and miss" proposition, and that sometimes they were good and sometimes they weren't so good. Mr. Seidel stated he understood that the informant coverage available to the San Diego Division had been of such quality that it had not been necessary to make use of an electronic surveillance to cover BPP activities. I stated that I didn't know anything about that.

Mr. Seidel then asked what other kinds of cases I was assigned during that period I was responsible for the COINTELPRO. I said that the cases were generally of a BPP orientation, but I also participated in non-BPP kidnap, extortion, bank robbery, and fugitive investigations and also handled some fugitive cases involving BPP activists.

Mr. Seidel stated that he had no further specific questions at this time because the Committee was not yet in receipt of COINTELPRO documents. He said he would have additional questions for me in the future. The formal interview concluded at 11:27 a.m.

From approximately 11:27 a.m. until 12:00 Noon we conversed regarding matters unrelated to the formal inquiry and upon my departure he asked if I would be out of town in the next few weeks. I responded that I was tentatively scheduled to be out of town off and on between the middle of September and the end of October. I suggested that if he needed to contact me in the future he make necessary arrangements through Paul Daly of the Office of Legal Counsel or through whatever appropriate channels had been previously established.

On 9/3/75, James Bland, former Special Agent, telephone number OL2-4671, telephonically advised that he had been contacted by Martha Tally, Senate Select Committee Staff Member, and was requested to make himself available for Staff interview concerning the history of the Security Indices (Index) and the Bureau's relationship to the Department concerning this matter. Tally advised Bland that they had been given a detailed briefing concerning this matter by Assistant Director Wannall of the Intelligence Division. Bland was advised that he had a right to counsel during interview; however, the Bureau could not provide him with private counsel. He was also informed that there were certain areas to which he may properly refuse to answer any questions. Those areas are where responses might tend to identify a confidential source, information concerning sensitive investigative techniques, information derived from other Government agencies, including information from foreign intelligence sources, and any information the disclosure of which could adversely affect ongoing investigations.

Bland advised that he would furnish a written statement of information of this interview to Section Chief William O. Cregar and that should any problem arise as to his being released from his employment agreement he may be reached in Williamsburg, Virginia, at telephone number 804-564-9477.

RECOMMENDATION:

That former Special Agent Bland be released from existing employment agreement for purposes of the aforementioned interview.

This memorandum reports the results of a meeting of the Policy Steering Group held at CIA Headquarters on 8-27-75. In Mr. Colby's absence, the meeting was chaired by Major General Jack E. Thomas (Ret.), Acting Deputy Associate Director of the DCI for the Intelligence Community. In attendance were Mr. Philip Buchen, Counsel to the President, James A. Wilderotter, Associate Counsel to the President, Mitchell Rogovin, Special Counsel to the Director of Central Intelligence, Michael E. Shaheen, the Department's Special Counsel for Intelligence Coordination, Inspector John B. Hotis, SA Leon F. Schwartz and representatives of the State Department, Department of the Treasury, Department of Defense, Office of Management and Budget, and the National Security Agency.

The primary purpose of the meeting was to discuss current relations with the House Select Committee. Mr. Rogovin, Special Counsel to the Director of Central Intelligence, said he met earlier that day with A. Searle Field, Staff Director of the House Select Committee on Intelligence Activities and discussed several topics of interest to the intelligence community. Field said that starting on 9-17-75 the Committee plans to hold additional public hearings using the same general format as in the past. At the outset, the Committee will call the people at the operational level, such as Assistant Directors. The heads of the agencies will be asked to testify at the final hearings held at the end of the year.

Rogovin said Mr. Field expressed concern about the possibility that some agencies were intimidating witnesses. He was referring to the arrangement whereby agency employees who appear as witnesses are required to write memoranda reporting the substance of the interviews. Field was primarily concerned about voluntary witnesses, those "who might be coming in the back door." He agreed, however, to follow the procedures.

Re: HOUSTUDY, SENSTUDY - 75

followed by the Senate Select Committee concerning abuse interviews versus investigative interviews. Although it would be possible to have an Agent present during the investigative interview, he would be required to leave the room if there was a discussion of abuse practices. This, of course, would not prevent an individual from having counsel of his own choice present during the interview.

Rogovin said his own view is that an agency can supply counsel as long as the employee realizes that there is a potential conflict of interest and that the counsel's first allegiance is to the agency. It was pointed out that the Department of Justice has taken the position that a potential conflict of interest prevented it from providing counsel for the employees during these interviews. He was told that the Department of Justice is researching the question of whether the Government can reimburse an employee who finds it necessary to employ private counsel at his own defense. Rogovin said he felt that the Department's position was inconsistent with its participation in the lawsuits involving Haldeman, Ehrlichman, Mitchell, et al., in which the Department is providing legal representation. Rogovin said he believed an effort was underway to set up a panel of attorneys in Washington who might represent such employees as a public service.

Rogovin said he had been advised that Edward Roder had recently been dismissed from his position as staff investigator by Mr. Field. Field is now concerned that Roder will return to his former job as a reporter for the "Baltimore Sun" and "leak" information obtained in his capacity as staff investigator. He asked Rogovin for advice on how he thought the secrecy agreement signed by the Committee staff members could best be enforced in this case. Field asked to be advised of any inconsistencies where members of his staff used poor judgment. Rogovin cited a recent case in which a staff investigator asked a senior official of CIA who spoke with a noticeable accent whether he had ever been a member of the German Intelligence Service.

Rogovin said Field insisted upon learning the identity of all informants and proprietaries, including officers and directors. He was told that this information

Re: HOUSTUDY, SENSTUDY - 75

would not be furnished to him, since it is given very limited dissemination even within the intelligence community. Field said this position demonstrates a lack of trust toward the Committee and its staff members and a failure to respect their legislative mandate. Rogovin said that is not the issue; rather it is whether it is wise to entrust all that sensitive information to one person.

As a final item he said that Congressman Les Aspin had asked for a briefing on electronic surveillance practices. Rogovin said Aspin is one of the brightest members on the Committee and can be a leader in molding the opinion of the Committee. Wilderotter said we should not honor Aspin's request until we have some assurances that he will maintain the confidentiality of such information. He suggested that we "hold up until the Committee has a better track record."

Rogovin then asked for comments from those in attendance concerning a draft letter from Mr. Colby as Director of Central Intelligence to Congressman Pike concerning procedures that would be followed with respect to requests for documents and interviews of witnesses (copy attached). Mr. William G. Hyland, Director of Intelligence and Research, Department of State, said that his Department will not provide a reading room for Committee staff members, nor will they give a brief description of documents belonging to another agency. It was suggested and agreed that the wording of the draft letter will be revised to eliminate any references to a "brief description" of documents withheld for Third Agency clearances.

The question of the ultimate disposition of documents and other materials furnished the Committee was raised once again. Several of the attendees expressed serious concern about the failure of the draft letter to take a firm position on the need for a resolution of this issue. It was pointed out that all of the ultimate safeguards and procedures would be to no avail if such information was ultimately published or made available to the other members of Congress without restriction. Mr. Wilderotter suggested that we should refuse any further cooperation until this matter is resolved. Mr. Buchen felt, however, this was not a realistic position to take and instructed Rogovin to alter the wording of the letter to strengthen the demand that a prompt decision be made in this matter.

CONTINUED - OVER

Legal Counsel to Mr. Adams Memo
Re: HOUSTUDY, SENSTUDY - 75

Mr. Hotis said that the list of sensitive categories set out in the draft letter was not broad enough to meet the Bureau's needs. It was pointed out, for example, that the list did not extend to information the disclosure of which would jeopardize ongoing investigations. In addition it was noted that the agency was permitted to withhold names of citizens or organizations only where it had "pledged" confidentiality. Mr. Rogovin agreed to change the wording to include persons or organizations with whom the agencies had a confidential relationship. Mr. Buchen said that the letter would not be sent on behalf of the entire intelligence community. He wanted to see "how this would fly" and if it was successful each agency could draft similar letters tailored to meet its own needs.

It was also agreed that the wording in the last paragraph of page 2 of the letter dealing with deliberative documents would be changed to insure that it would apply to all documents involved in the executive decision-making processes.

At the close of the meeting Mr. Hotis expressed grave concern over the growing number of Congressional Committees exercising oversight responsibilities over the FBI. In addition to the Select Committees of both Houses, staff members of the House Subcommittees on Civil and Constitutional Rights and Government Information and Individual Rights have recently contacted present or former employees of the Bureau in an effort to conduct interviews. We have also received requests from the House Subcommittee on Courts, Civil Liberties, and the Administration of Justice and the Subcommittee on Postal Facilities, Mail and Labor Management for information on Bureau practices regarding electronic surveillances and mail openings, respectively. Not only does this impose a severe administrative burden on the Bureau, but it also increases the likelihood that sensitive information furnished to these Committees will eventually be compromised. Mr. Hotis said that there was an urgent need for consolidation of these Committees and suggested it would be helpful if the Administration discussed such proposals with leaders of Congress. Mr. Buchen agreed and asked that a letter be directed to him setting forth the problems, which could serve as a basis for a memorandum to the President. He said the President might discuss this matter at his next meeting with joint leadership of the Congress. Michael Shaheen, Special Counsel for Intelligence Coordination, later suggested to Mr. Hotis that the letter be prepared for the Deputy Attorney General's signature for submission to Mr. Buchen.

CENTRAL INTELLIGENCE AGENCY

WASHINGTON, D.C. 20505

The Honorable Otis G. Pike, Chairman
Select Committee on Intelligence
House of Representatives
Washington, D. C. 20515

ALL FBI INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 10-27-00 BY SP2ALM/RW

Dear Chairman Pike:

On July 25th I left with you a packet of materials concerning procedures that might be appropriate in handling the variety of demands your committee will be making upon the Agency in the months to come. Since then we have had a number of frank discussions regarding security and other aspects of your Committee's investigation. In addition, the Committee's Staff Director has held a series of discussions with our Special Counsel and members of my staff. With this then as background, let me suggest the adoption of certain procedures that I believe will insure our ability to respond promptly and fully to the needs of the Committee.

I. Documents:

Upon receipt of a written request for documents dealing with a particular area of inquiry, the Agency will promptly respond with an answer, a partial response or at least a statement as to when the materials will be available. To insure that there are no misunderstandings as to the materials requested, I have encouraged our staff to contact your staff members and discuss the precise nature of any request not clear on its face. Further, our staff has been instructed to make materials available as soon as they are ready and not hold up a response until all of the materials requested have been compiled. When documents are withheld because clearance is being sought from another Agency, your committee will be notified and a brief description of the document will be given.

ENCLOSURE

ENCLOSURE

To assist us in servicing your requests we have asked that where practical, the request for documents be as specific as possible and that your staff coordinate their requests so that House Select Committee priorities will be given to the various demands. We have set up a reading room at the Agency where documents will be made available for examination.

With respect to the documents to be made available to the Committee, there are certain sensitive materials that must be protected not only from exposure but even the risk of exposure. Included in this sensitive category are:

- names of agents and sources;
- names of persons involved in Agency operations who would be subject to personal, physical danger, to extreme harassment or to economic or other reprisals if their names were to be publicly identified;
- material provided confidentially by cooperating foreign intelligence services;
- details that would reveal the nature of sensitive intelligence methods and techniques of collection, by technical and human means;
- names of cooperating Americans and American organizations and contacts to whom we have pledged confidentiality.

In making such deletions, our staff has been instructed to describe the deletion, e.g., as a CIA officer or agent, in order to place the material in context. Where your staff believes that a particular name or detail is critical to their inquiry, this then should be brought to the attention of our staff and the matter can be negotiated. I believe this procedure is consistent with your statement to me that the Committee is not interested in our sources and methods, or in the names of agents.

Finally, some proposed testimony and requests for documents may enter the area of the executive decision-making process in which the need to protect the confidentiality of advice or recommendations to policy-making bodies has long been recognized. This would apply,

for example, to Presidential or 40 Committee deliberations relating to approval of CIA actions. Where such a circumstance exists, we would advise the Committee that executive approval is being sought and that we would be in further touch with your staff on the matter.

We will want to work together, too, to protect certain other information which, if improperly disclosed, could impair the legitimate rights of privacy of individuals. I am sure we can deal with these matters so as to protect this essential privacy while satisfying the Select Committee's need for a full understanding of intelligence activities.

II. Witnesses:

You doubtless will want to interview present and former CIA employees. Current employees will, of course, be made available to the Select Committee for staff interviews and for testimony. This on rare occasions may require special arrangements, including testimony under alias, to protect the identity of employees whose safety or future utility might be jeopardized by exposure. With respect to the interview of Agency employees who are currently on detail to other agencies in the government and whose testimony relates to CIA matters, we will arrange with the host agency to make the employee available upon request of the Committee. Where the employee is sought to testify with respect to matters concerning his detail or matters relating to the host agency, we will bring your request to the attention of the host agency. Thus, if your staff will advise us of whom they wish to interview, we will make the appropriate arrangements with our employees. While I have no authority to direct the cooperation of ex-employees, I will be happy to assist you in any I can. In a very few cases, their identities also will have to be protected.

As you know, each employee had to sign a security agreement upon entering on duty. This requires that he keep forever secret all classified information gained during his employment, unless he obtains prior authorization to disclose it from the DCI. These secrecy agreements signed by our employees and ex-employees need not impair the necessary work of your Committee. In view of the security protection contemplated by your Committee, I have determined that disclosure of otherwise protected information to the Select Committee or its designated staff members will, in most instances, constitute a fully authorized provision of information within the meaning of the secrecy agreements. This letter may be used to

indicate authorization for any Agency employee to furnish information to the Select Committee or to appropriate staff members on matters which otherwise would be covered by their secrecy agreement. Where, however, the answer to the particular question covers the highly sensitive matters mentioned above, the employee or former employee is obligated to consult with the Agency before responding. In this regard, the Agency should be notified before the Committee contacts each Agency employee or ex-employee who is to be interviewed or called to testify. I attach a separate letter addressed to CIA ex-employees which should be shown to them for the same purpose.

Since so many of our activities involve sensitive areas, I propose a procedure which should aid the Committee in expediting its investigation. If the Committee will notify Mitchell Rogovin, Special Counsel to the Director, of the areas of its inquiry at the outset, we would be in a position to highlight particularly sensitive issues and work out methods to insure that your Committee obtains what it needs without unnecessary risk to the sensitive matters. We will then be in a position to advise the Committee whether any particularly sensitive issues may be involved. Such a procedure will insure you get the information you need to perform your task and at the same time safeguard sensitive intelligence sources and methods which I am obligated by law to protect.

In conclusion, we ask that your Committee make an early determination as to the ultimate disposition of its records upon completion of its tasks. I am sure you will join me in recognizing that permanent, safe storage and security safeguards will be necessary to protect the sensitivity of the Committee's records. To this end you may wish to discuss permanent disposition with the Archivist of the United States.

It is in our mutual interests to ensure that your review proceeds as smoothly and as expeditiously as possible. Toward that end, I have instructed all CIA personnel to respond in a spirit of cooperation. A copy of that instruction is attached. And, I am prepared to consult with the Committee at any time to determine appropriate courses of action.

Sincerely,

W. E. Colby
Director

Reference is made to Part III of the August 20, 1975, request by the SSC for FBI materials for delivery by August 29, 1975.

The materials requested in Part III of the aforementioned request have been processed, with exceptions noted below, and will be delivered to the Committee on August 29, 1975, with this communication.

Item 2 of the request inquired concerning a "library" of "handout" material maintained by "the New Left Reporting Unit" in 1970. The term "library" has been used by this Bureau to describe such material in a general sense. No formal, permanent, cataloged collection of material has existed. Rather, it has been the practice of supervisors handling "New Left" matters to maintain in their office space copies of material which came to their attention in the course of their duties and which might be of value in quickly responding to requests for, or inquiries concerning, such material. This practice continues. The material consists of both classified and unclassified documents, such as articles by former Director J. Edgar Hoover, as well as newspaper clippings, magazine articles and pamphlets. No formal record has been maintained of the materials on hand at any particular date. Neither was any centralized, formal record made of the recipients to whom materials were furnished or what materials were furnished. The current collection of such material is available for review by SSC Staff Members if desired.

Item 5 related to the "Racial Calendar." Materials responsive to your request are being furnished. However, no record was located regarding the decision which was made, to cease sending copies of the Racial Calendar to FBI field offices.

Item 7 of the request related to the so-called "program" entitled "Communist Influence on Racial Groups," Bureau file number 100-442529. That file is entitled "Communist Influence in Racial Matters (CIRM)" and documents responsive to your inquiry relating to the origin, approval and current reporting requirements in that matter are being furnished herewith. However, CIRM is actually an area of investigation, rather than a program. Accordingly, no provisions were made for regular periodic reviews of this matter and no material relative to periodic reviews, such as would be available in the case of a program, have been located.

Items 12 and 13 related to the March on Washington and the Communist Party's influence in racial matters subsequent to the March on Washington. Compliance with these two requests involves location of approximately 250 volumes of material, their review and processing for delivery of those portions responsive to these requests. The magnitude of this undertaking, concurrent with the handling of the other extensive requests contained in the referenced August 20, 1975, request, has made it impossible to complete work on these two items to date. Our efforts to provide a comprehensive response to Items 12 and 13 are continuing on a priority basis and it is anticipated that delivery of desired materials to the Committee will be made by September 8, 1975.

Item 17 related to requests by the Intelligence Division for placing "stops" with the Identification Division and the National Crime Information Center (NCIC) Section. In addition to the material being furnished herewith relating to placing of stop notices, the Manual of Instructions contains

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

instructions which have been made available previously for review by Staff Members regarding placing stop notices on such persons as Administrative Index subjects, Bombing Matters subjects and informants.

Item 18 related to contacts with the Commission on Campus Unrest to secure a copy of the Commission's report. A thorough review disclosed no documents relating directly to the Committee's inquiry. However, communications relating to FBI contacts with the Commission are being furnished herewith.

BY SSC STAFF MEMBERS

ALL INFORMATION CONTAINED

On August 12, 1975, FBI SA James P. Kehoe, assigned to the New York Field Office, traveled to Washington, D. C., at the request of the SSC for the purpose of a Staff interview. He was accompanied by his attorney, Mr. Herbert Kantor, who was present during the interview, took notes, and subsequently prepared a statement concerning the interview.

Attached to this memorandum is Mr. Kantor's statement.

SA Kehoe has advised of two corrections which should be noted relative to Mr. Kantor's statement. On page 6, paragraph 1, line 9, the word "familiar" should have read "unfamiliar." On page 9, first complete paragraph, line 4, a sentence begins "It reviewed several hundred pieces..." The complete sentence should be altered to read "It reviewed several hundred pieces of mail a day to obtain letters addressed to Soviet personnel." The next sentence which reads, "All such letters were brought back to the FBI and photographed," refers only to those addressed to Soviets and not to the several hundred pieces as is implied in the manner in which it appears in Kantor's statement.

SUMMARY OF APPEARANCE WITH JAMES KEHOE BEFORE SENATE SELECT
COMMITTEE TO STUDY GOVERNMENTAL OPERATIONS WITH RESPECT TO
INTELLIGENCE ACTIVITIES ON AUGUST 12, 1975

SECRET

I met with James Kehoe at the offices of the FBI
at 12:45 P.M. John B. Hotis, Leon F. Schwartz and Paul V.

Daly were present. I was furnished a memorandum concerning
Kehoe's appearance before the Senate Select Committee, a copy
of which is attached. Mr. Kehoe and I were assured that the
Director had waived the secrecy agreement with respect to
Kehoe's testimony insofar as it related to mail covers and
interception, and that the Department of Justice had approved
the furnishing of such testimony. Mr. Schwartz advised that
he would accompany us to the offices of the Committee and would
keep himself available in the event that his assistance was
required.

Kehoe, Schwartz and myself arrived at the Senate
Office Building at 1:55 P.M. We were met by Paul Wallach,
James Dick, and Thomas Dawson. Wallach and Dick were staff
counsel to the Committee; Dawson identified himself as being
in Research. Wallach, Dick, Dawson, Kehoe and I proceeded
to the office of Senator Huddleston where the interview took
place. Schwartz remained in an adjacent room. The interview
proceeded as follows:

James Dick initiated the questioning. Kehoe stated
that he had been given no specific instructions from the
Bureau as to how he was to testify. He stated that he was a
Special Agent of the FBI having entered service in 1951 and

that he was assigned to counter intelligence for approximately 22 years. His squad was concerned with Soviet espionage activities in the United States

~~SECRET~~

Kehoe identified the agents in charge of the New York Office during his tenure (LaPrade, Malone, Foster, Powers and Schmidt) and his immediate supervisor in the mid 1960's (Brandt).

Kehoe stated that he worked exclusively in counter intelligence except for occasional manpower emergencies when he might be assigned other temporary duties.

Kehoe stated that all requests for mail covers were forwarded through his office to the Director in Washington and that approval would be returned in the same manner. All communications from Washington came under the name of the Director. Upon receipt of the approval, contact would be made with local postal inspectors.

Direct communications with postal inspectors might take place in special circumstances. For example, if a subject being surveilled placed a letter in a mailbox, postal inspectors might be requested to locate the letter and advise the name of the addressee. No search warrant would be obtained under such circumstances. Kehoe stated that all investigative contacts with the postal service were made with postal inspectors. Mail carrier and other personnel were not contacted directly. The FBI maintains liason with the post office, but individual agents could contact postal inspectors directly in certain matters connected with their cases. Kehoe could not recall the names of the liason men in the mid 1960's.

~~SECRET~~

Kehoe stated that his first contact with the Committee was with Paul Wallach, that his contact with the Washington Office

of the FBI in connection with his appearance was with John Hotis. He advised that the FBI had not furnished him with counsel and that Herber Kantor was his personal counsel.

~~SECRET~~
Kehoe stated that he visited Kennedy Airport in connection with his duties to observe arrivals and departures of persons under surveillance, to confer with the resident agents, and in connection with mail procedures. In 1959 Kehoe suggested that a program to review outgoing foreign mail be initiated. The suggestion for the program was submitted to his supervisor and the agent in charge forwarded the suggestion to the Director. He did not recall how long the request was pending in Washington, but stated that it was approved and continued for approximately four years.

Arrangements were made with postal inspectors to have postal employees deliver certain air mail to a room in the air mail building where it was scanned by FBI agents. Letters to specific addresses in certain cities as well as letters having certain indicators on the outside of the envelope that implied a Soviet Connection were withdrawn from the mail and brought to the New York Office. Kehoe stated that the indicators were received from a sensitive source and could not be revealed. He confirmed that there was good reason to believe that the indicators were accurate and the program subsequently proved their validity. The program was given the acronym designation "SAM Survey" and assigned a case file. The mail that was scanned under this program included mail going to both Eastern and Western European countries. Kehoe stated that he believed the program was terminated by the Director in 1963,

~~SECRET~~

although he is aware that newspaper reports had indicated that the program might have continued thereafter.

A separate program providing for the review of all mail addressed to the Soviet establishments in New York was conducted at or about the same time as SAM. This project received the designation "Z Coverage". To Kehoe's knowledge the "Z" project was not generic, but related specifically to mail addressed to the Soviet mission to the United Nations. Kehoe did not know how the Z program was initiated but believed that it too was terminated by the Director in the mid 1960's.

A third mail program designated "SUN Survey" paralleled the other two programs during the early 1960's. [This program included scanning the mail addressed to all Soviet personnel at a post office box reserved for the United Nations. This mail included Soviet citizens working at the United Nations other than in the Soviet United Nations mission. Kehoe stated that he was not aware of any other mail intercept program involving the Soviets.]^(S) He stated further that he would have no knowledge as to whether any other mail intercept programs existed with respect to non-Soviet matters. Kehoe said that he did not know the members of the China squad and that he had not heard of the Hawaiian Project. Kehoe said that he participated in SAM and SUN but not in Z. If a project originated out of the New York Office or was conducted by it, it would be unlikely that the SAC would not have knowledge of it.

SECRET

Kehoe stated that he would write a memorandum of his appearance before the Committee and submit it to the FBI. I state that the FBI had made no request for my notes. Kehoe said that he was not aware of any ongoing mail projects other than mail covers used in connection with specific cases.

Kehoe said that in the mid 1960's the SAC was Joseph Schmidt and his supervisor was Arnold Brandt. His squad was designated by a letter or a number which did not have reference to its function in Soviet counter intelligence. The squad designation changed from time to time "as a football defense adjusts to counter the offense".

Kehoe could not recall his first meeting with postal inspectors in connection with the SAM survey. Kehoe said that he knew the postal inspector in charge but did not recall whether he discussed the SAM survey with him. If the postal inspector in charge was present at such meeting then Kehoe believes that he would have been accompanied by Schmidt. The FBI informed the postal inspectors that they wished to review outgoing mail at Kennedy Airport addressed to certain European countries. The review of the mail was completed before the flight out so that there was no delay. A list of known Soviet mail drops was created and used for this purpose. Kehoe's entire squad worked on the project at various times. The special indicators were looked for on a random sample basis in the mail to various European cities. The selection of which cities' mail would be reviewed depended upon flight schedule and manpower availability.

SECRET

Kehoe was introduced to a post office employee at Kennedy Airport by a postal inspector. Kehoe visited Kennedy about five times while the project was being set up. He did not participate in the actual scanning of mail thereafter. When the mail was delivered to the room designated, the postal employees left. No postal employee was present

when the mail was scanned. Kehoe believed that a sub-section supervisor, James O'Brien, assigned the personnel to scan the mail. Kehoe said the name Orenstein was familiar and might have been one of the names of the postal employees who worked at Kennedy Airport.

Mail addressed to the addresses on the watch list or bearing the indicators was opened by steam, the contents photographed, then replaced, returned to Kennedy Airport and put on the next flight together with other mail. Inspection for microdots was undertaken, but lab tests were not performed for other secret writing as it would destroy the letter. The program was conducted at Kennedy Airport only. It was pursued around the clock, seven days a week. It was keyed to specifically known Soviet mail drops and indicators and was not based on the sender.

Kehoe stated that he had read the Rockefeller Committee report concerning the CIA mail program. He stated that the differences in the programs between the CIA and FBI may have been due to the differing functions of the agencies. Kehoe stated that he was not aware as to whether information was exchanged with the CIA and that he did not meet with Mr. Papich.

Kehoe said that not more than three or four men at a time were assigned to review the mail. Special skills and language were not required. He identified as members of his squad in the 1960's Francis Zangle, Bob Fieldhouse, James McCarthy, Ray Wirth, Mike Moffit, and Richard McCarthy.

Kehoe stated that he was not in contact with the CIA during the early 1960's. He had only occasional contact after liason between the two agencies broke down.

Kehoe stated that the SAM Survey probably opened fewer than 100 letters. If one letter bearing special indicators was located within a six-month period, it was as much as could be expected. Ordinary surface mail and registered mail were not a part of the program. The letters were photographed in the same manner as the Z cover letters. Kehoe stated that the room at Kennedy Airport did not contain a telephone and was not visited by anyone from Washington. Kehoe said that Schmidt did not visit the room. No record of the mail reviewed was made in the room and no photographic equipment was present there. A letter was either withdrawn from the mail and taken to the New York Office or put back into the mail without notation. From time to time additions to the watch list were forwarded from Washington. Kehoe stated that he did not know of his own knowledge but assumed that such additions may have come from the CIA.

Kehoe said that no cover story was developed in anticipation that the program might be exposed. The question of exposure had not been raised nor did the FBI have concern

SECRET

for the postal office employees working in connection with the program. The only concern was that the Soviet personnel might discover the mail watch ~~SECRET~~ and change their method of operation. Kehoe stated that the case file was re-assigned by him to George Quinn, who is now deceased. He did not know who received the assignment of the case after Quinn.

When a letter containing indicators was opened and photographed there was no general dissemination of information. A case file was opened with reference to an illegal Soviet in the United States writing to his superior in the U.S.S.R. through a mail drop in a European city. More complete identification was difficult since the letter was fictitious. False names were used and the communication was clandestine. Washington was informed of the location of the letter but nothing more than an acknowledgement would be returned.

Washington did not express any complaint with respect to the man hours spent on the project. Kehoe assumed that Washington personnel were informed of the project on a "need to know" basis.

Kehoe stated that the SAM survey was terminated by the Director as a policy decision not because of any specific event with which he was familiar. To his knowledge, the project was never reinstated, although he had suggested privately, but not officially, that he believed it would have value if re-commenced.

Co-ordination with the CIA was never requested. Kehoe met several employees of the CIA from time to time but did not recall their names. Kehoe was not aware of any request that the

~~SECRET~~

CIA made for bugs or break-ins either through the New York or Washington Offices of the FBI. Kehoe stated that he had no direct knowledge with respect to break-ins into installations of other governments including South American countries.

The SUN Survey was initiated by George Quinn. It had procedures similar to the SAM Survey. [It was assigned a room on one of the upper floors of the Grand Central postal building. It was a natural extension of the Z coverage. It reviewed several hundred pieces of mail a day. All such letters were brought back to the FBI and photographed. One man was assigned to this duty each day at the Grand Central post office. Kehoe took his turn from time to time. Since the Grand Central post office was nearby, it was less time consuming than the Kennedy Airport project. The room assigned to the FBI was not private and there were postal functions going on on the same floor. Kehoe believed that the same postal service employee was assigned to deliver the mail for scanning each day. Kehoe did not discuss the mail projects with anyone outside the FBI. Kehoe did not believe the project could not be functioning today in the New York Office without his being aware of it.] (S)

Kehoe believed that worthwhile information was derived from the mail projects. The SUN letters that were photographed were not routinely sent to Washington as many such letters were innocuous. Any letters to the Soviet Mission to the United Nations would be photographed regardless of the source. Kehoe had no knowledge of the names of any prominent persons writing to the Mission but stated that anyone (S)

SECRET

who did so would have had their letter photographed. Kehoe believed that the Soviets had a similar mail operation function.

Kehoe did not know Frank Fabarini or Robert Williams. He was familiar with Robert Hickey and Robert Monroe postal inspectors, and Henry Montegue.

Mr. Wallach thanked Mr. Kehoe for appearing and stated that he thought he was most cooperative. The interview terminated at 4:40 P.M.

I have detailed penciled notes of the interview, including which of the three questioners addressed their questions to Kehoe. My notes are available in the event that further details are required.

Reference is made to the SSC request for materials from this Bureau dated August 20, 1975, and specifically, to Part II, which called for access to materials by August 29, 1975.

Concerning Items 1, 2, 3, and 6 of Part II, the requested materials are now available for review at FBI Headquarters. The material relating to Item 6 is available pursuant to special agreed-upon arrangements made between Special Agent Elmer W. Larson, Jr. of this Bureau and Mr. John T. Elliff of the SSC.

With respect to Items 4 and 5, Mr. Elliff was advised by Mr. Michael E. The exact material covered by this order has not been determined at this time; nor have procedures for furnishing material covered by the order been arranged. This Bureau will effect compliance with the requests covered in Items 4 and 5 upon the establishment of procedures between the Department of Justice and the SSC concerning this matter.

This is to record furnishing to the Senate Select Committee on Intelligence Activities (SSC) National Security Agency (NSA) materials which NSA authorized us to deliver to the SSC.

SSC request 8/5/75, Item V, Part E, requested access to certain materials relating to the NSA Watch List. Inasmuch as the desired materials were not readily identifiable in our files, Section Chief W. O. Cregar arranged to borrow from NSA its folders regarding the Watch List. These folders contained NSA material, as well as FBI communications, relating to individuals and organizations we had requested NSA to place on the Watch List. Using these folders we were able to identify in our files FBI documents responsive to aforementioned SSC request. In response to a further SSC request, 8/26/75, Part I, Item 1, such documents were delivered to the SSC by our memorandum dated 9/5/75.

On 9/8/75, SSC Staff Member James Dick asked if we would deliver the NSA folders to him. Mr. Cregar secured clearance from Dave Lohman, NSA, to turn over the folders. On 9/9/75, James Dick of the Senate Select Committee advised that he desired to interview former SA Arnold Brandt concerning mail openings involving Bureau personnel. He tentatively scheduled the interview for 11 a.m. on 9/15/75 in Room G308. He stated he was contacting Brandt in this regard.

Brandt subsequently contacted SA Paul V. Daly of this Division and advised he had been contacted by the Senate Select Committee and was requested to make himself available for Staff interview by the Committee concerning mail openings. Brandt was advised that this particular area was under inquiry by the Department of Justice to determine whether there was criminal conduct on the part of Bureau personnel and that as yet the Department had not made a determination. He was also advised that his appearance was voluntary before the Committee and that the Bureau could not provide him private counsel. Brandt tentatively indicated he would appear for the interview and that he may also consult with an attorney. Brandt was told that the Bureau would brief him generally concerning his rights and certain areas which he may properly refuse to respond to prior to his interview. He indicated he would arrive in sufficient time prior to the 11 a.m. interview so that he may attend such a briefing.

RECOMMENDATION:

That former SA Brandt be released from any existing employment agreement for purposes of an interview by the Senate Select Committee.
